

# ENCORD SDN BHD

YOUR VALVE, PUMP & AUTOMATION SPECIALIST

**YOUR ONE-STOP  
SERVICING SOLUTION**

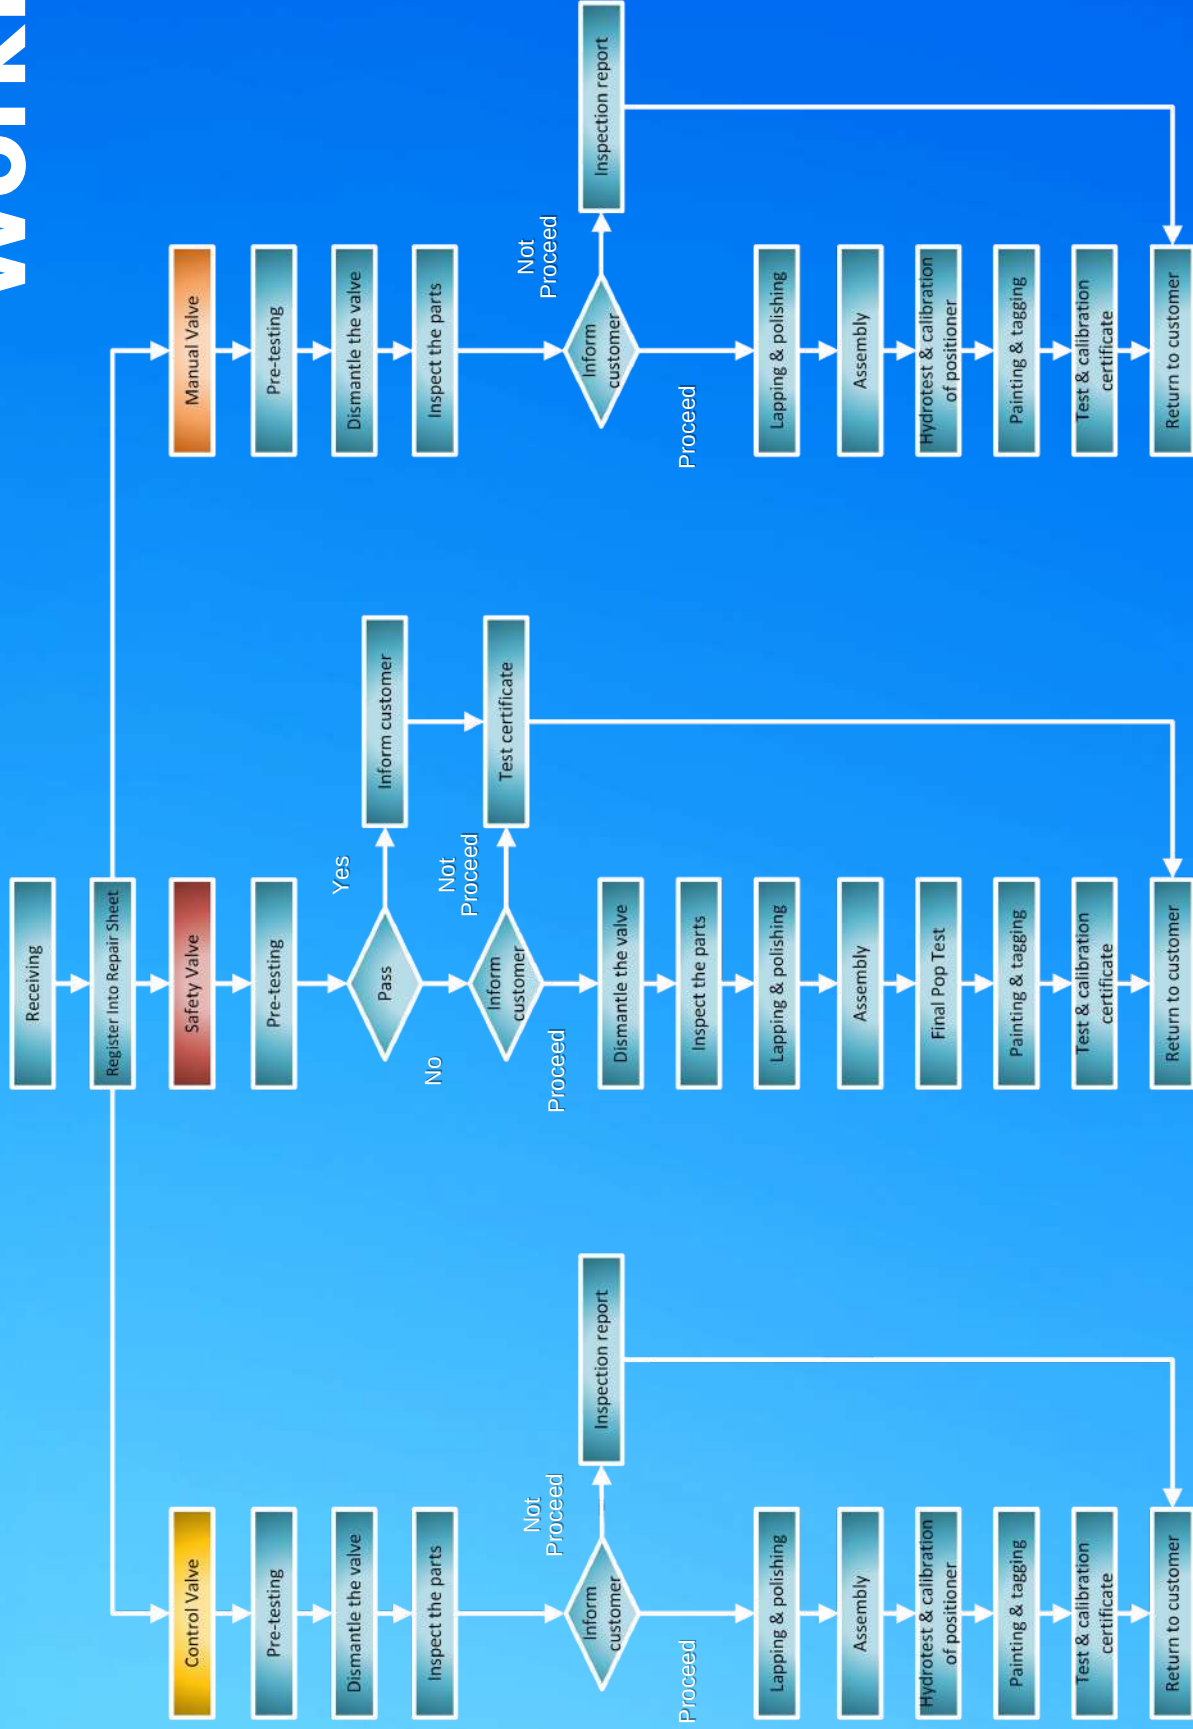

# Our Accreditations

## Scope of SAMM

- Scope: Mechanical Testing
- Material/Product Tested: Safety Relief Valve (Pressure up to 60 bar.)

# Our Workflows

# Our Service Facilities

## **Kemmet Auto Lapping Machine**

*The lapping machine is used for lapping and polishing the disc of pressure safety valves.*

## **Test Bench**

*The test bench is used for testing pressure safety valve and pressure relief valve up to DN200.*

## **Tagging Machine**

*The tagging machine is used for making tags for pressure safety valve, control valve, and general use.*

# Our Service Capabilities

## Control Valve

Calibration in progress.

## Safety Valve

Pop test being carried out.

## Manual Valve

Reassembled manual bellow sealed valve after pressure testing.

## Actuator

Removing internal parts for servicing.

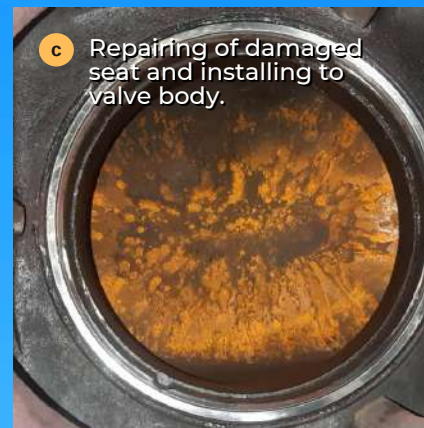

# Some of Our Projects

## 1 Unitata HP111 High Performance Butterfly Valve Servicing

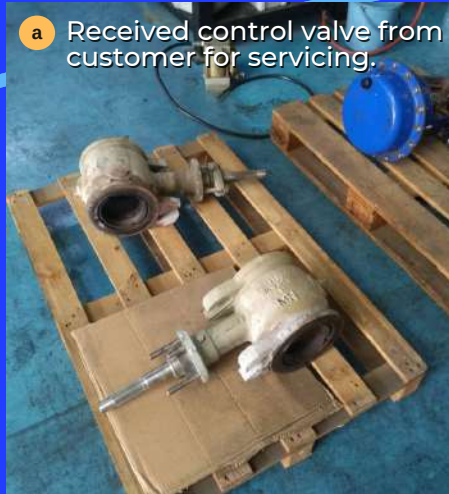

## 2 United Plantations Berhad Stop Valve Servicing

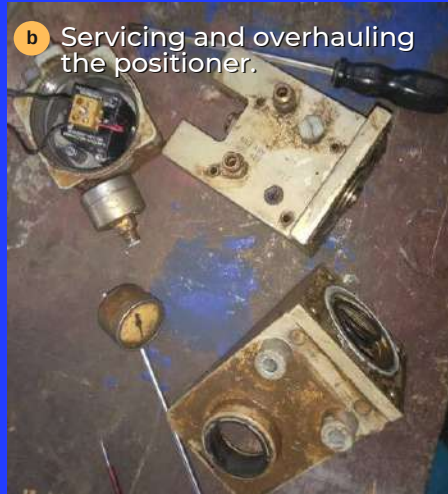

# Our Recent Projects
